

# Parks and Recreation Clubhouse Programs

## Page 1: Seasonal & Crafty/Messy

## Page 2: Sensory, Family, Science & Messy

### Seasonal Labs

#### **Pumpkin Lab (Ages 2 & up)**

All participants will carve their own Jack-O-Lantern! Parks & Recreation will supply the pumpkin, a tea light candle, and all materials needed to carve a pumpkin! The best part is our instructors will clean up the mess, so you won't have it in your home! **Children ages 2 - 7 must have a parent/guardian on-site to supervise them and use carving tools with them.**

#### **Holiday Lab (Ages 2 & up)**

All participants will make their own snowman handprint ornament and create a second ornament with a clear ornament and a variety of materials, including paint, glitter, ribbon, and more. Parks & Recreation will supply all materials to make these projects and assist with assembly as needed. Children ages 2 - 7 must have a parent/guardian on site to supervise and assist with acrylic paints and other small pieces for crafts.

---

### Crafty & Messy Labs

#### **Tie Dye Lab (Ages 2 & up)**

All participants will be able to make a tie-dye shirt to take home. We provide all materials to tie dye, EXCEPT a shirt! Bring a shirt, sweatshirt or hoodie with you to tie dye. Our instructors will demonstrate different ways to fold a shirt and provide assistance when applicable. Participants will get to take home their tie dye shirt in a bag, with instructions on washing.

#### **ICY Tie Dye Lab (Ages 2 & up)**

This lab is the same as the tie-dye lab, however, we will use ice and more materials for an awesome watercolor effect!

Please come dressed down (in clothes to get messy). If you get tie-dye on your clothes or shoes, it will stain! **Children ages 2 - 7 must have a parent/guardian on-site with them to help with the shirt folds and assist with dying.**

---

## Sensory & Family Labs

### **Sensory Lab (Ages 2 & up)**

This lab will feature different sensory bin buckets (with pluffle, kinetic sand, water beads, and more) for children to play in. At the end of the program, children will make their own I Spy Jar or a Sensory Bag to take home. Children ages 2 - 5 need to have a parent/guardian present. This lab is great for all ages, even seniors, adults and teens!

### **Family Lab (Ages 5 & up)**

Join our instructors, Tess & Kiara, for an evening with activities, crafts and games for all ages. This is a drop-in program: stop in between 5:00 - 8:00 pm to do a variety of crafts, or board games at your leisure. Starting at 6:15pm Tess & Kiara will run camp competitive games, such as survivor-themed challenges and minute to win it. We will end the evening with a glow stick dance party starting at 7:30pm.

There is no limit to the amount of crafts you can do. This evening is geared towards family bonding, through unlimited crafts, games and activities.

All family members that are participating, need to register for this program!

*Children under 5 years of age are welcome to come, however, families should be aware that almost all games and crafts are not for that age group.*

---

## Science & Messy Labs

### **VOLCANO LAB (Ages 4 & up)**

All participants will make their volcano during this class with materials and some toys! At the end of the class, participants will add baking soda and vinegar (with our instructor's supervision) to their volcano and watch it erupt!

### **SLIME LAB (Ages 5 & up)**

All participants will make 2 different types of slime to take home. Participants can add scents, colors, charms and/or little pieces of decor.
