Official Letter from the North Pole

My dearest Connecticut Friends,

Can you believe Christmas is on the way?! My list is made and ready for first and second checks!

Receiving all of your letters and pictures in the magical mail remains the highlight of my year. There is an entire department of elves who sort and organize your messages to help me respond! We often read them together and love to hear about all the things you are thankful for. A thankful heart is a happy heart – HO HO HO!!

The joy in your letters fuels our work as we create toys, games, clothes, and goodies for children all around the world! When we take breaks, we love to spend time in the gallery admiring the pictures you've worked so hard on – so please keep coloring!

Our friends at the Parks and Rec have coloring pages and letter templates if you need a little inspiration this season. Make sure your letter gets into the magical mail on time so we can read it before Christmas gets here!

I just can't wait until Christmas!!

See you soon!

Santa Claus
